

Priyansh Gadia

ML Engineer | Quantitative Research | Full-Stack AI Systems

Mumbai, India | +91 8104521541 | gadiapriyansh@gmail.com | LinkedIn | GitHub

SUMMARY

Dual-degree engineer (IIT Guwahati 9.25 GPA | DJSCE 8.23 GPA) shipping production AI and quantitative systems end-to-end - from research hypothesis to deployed containerized infrastructure. Architected Argus (institutional quant monorepo with strict DSR/PBO anti-overfitting discipline), CryptoGraph Analytics (live real-time platform forecasting 107 crypto assets), and clinical ML models validated across 50,920 ICU records. Combines deep mathematical rigor (PyTorch, GNNs, state spaces) with enterprise engineering (FastAPI, Docker, Next.js 14) to build robust, high-conviction systems.

TECHNICAL SKILLS

Languages: Python, SQL, C, C++, Java, R, MATLAB, TypeScript Production proficiency across Python, SQL (PostgreSQL, SQLite), C, C++, Java, R, MATLAB, TypeScript, and modern JavaScript.

ML & Analytics: PyTorch, scikit-learn, XGBoost, LSTM, ST-GCN, SHAP Deep neural network architectures (ST-GCN, LSTM, NeuralProphet), model explainability (SHAP), time-series forecasting, pandas, NumPy, SciPy.

Systems & Cloud: FastAPI, Next.js 14, Docker, Redis, WebSockets Full-stack production web architectures, async APIs (FastAPI), real-time WebSockets, Redis caching, SQLAlchemy, Prometheus, Sentry observability.

PROJECTS

CryptoGraph Analytics - Ensemble Trading Platform [\[GitHub\]](#)

Graph Neural Networks, PyTorch, FastAPI, Next.js 14, WebSockets, ST-GCN

- Full-stack platform ingesting Binance feeds across 100+ crypto assets. ST-GCN x LSTM x NeuralProphet ensemble with Mixture-of-Agents swarm & LLaMA 3.3.

Intelligent Document Processing & Insight Engine [\[GitHub\]](#)

LayoutLMv3, FastAPI, XGBoost, DistilBERT, Document AI, Ollama

- Document intelligence with TF-IDF/XGBoost routing, LayoutLMv3 table extraction, DistilBERT sentiment, LLM streaming, and LRU cache (~150MB cold start).

Argus - Quantitative & RegTech OS [\[GitHub\]](#)

Quantitative Finance, PyTorch, Mamba, GAT, Risk Budgeting, RegTech

- 11-package monorepo for quant asset management: feature store (path signatures, rough vol), alpha models (Mamba-3 + GAT), and strict anti-overfitting (DSR/PBO).

GPT-2 From Scratch - Autoregressive Transformer in PyTorch [\[GitHub\]](#)

PyTorch, Transformers, GPT-2, Attention, Deep Learning

- Autoregressive transformer architecture (multi-head causal self-attention, learned positional embeddings, layer normalization, causal masking) implemented end-to-end in pure PyTorch.

EDUCATION

IIT Guwahati - B.Sc. (Hons) Data Science & AI

2023-10 - 2027-08

CPI: 9.25/10.0 (Upto Trimester VIII, peak 9.77 in Tri V) | Enrolled in 10th Trimester | Coursework: ML, Statistical Inference, Linear Algebra, Optimization, DSA, Stochastic Processes.

DJSCE - B.Tech (Hons) Mechanical & Robotics

2023-08 - 2027-08

CGPA: 8.23/10.0 (Upto Sem VI) | Enrolled in 7th Semester | Grade O in AI/ML, CAD/CAM & FEA Labs; Grade A+ in AI & ML | Coursework: Robotics, CAD/CAM, FEA, Thermodynamics.

CERTIFICATIONS

OCI 2025 Certified Data Science Professional - Oracle University

2025-10
